PRESS RELEASE

October 2010

STEWARTS AND LLOYDS ANNOUNCES LAUNCH OF STEEL SECURITY FENCING

Stewarts & Lloyds has recently launched its new product line of top quality steel security fencing products in South Africa.

In conjunction with leading manufacturer of steel fencing, Barkers UK, whose quality and specifications fulfill Stewarts and Lloyds criteria, offering superior steel related products to its customer base, Stewarts and Lloyds will now expand its portfolio of products to include security fencing.

With BSEN ISO 9001:2000 compliant quality control management, the manufacturer meets the most stringent global environmental standards as well as manufacturing quality required of this type of fencing.

The range of fencing systems are designed and manufactured to satisfy just about every fencing requirement from boundary demarcation and safety to low risk security , from anti intruder to maximum security systems.
These versatile products will cater for applications in schools, public areas, sports complexes, mining, military, commercial, industrial and high security sites.

This exciting range of quality products include pre-galvanized palisade fencing, railing systems, a customer specified designer range, mesh fencing systems, a sports range of fences, as well as gates, including cantilever and protector gates.

Stewarts and Lloyds will also offer a free consultancy and design service so that its customers' unique needs are satisfied.

For more information please visit their website at www.stewartsandlloyds.co.za or contact Russell Byrne on russelb@sltrading.co.za or 071 199 4466.
